**Subject:** Bi Monthly Background Meeting Day and Time

Dan and Brick Thanks for the initial presentation from the EWG, regarding potential Anthropogenic Background Data Sets for EW. As discussed, EPA would like to set a time and date for a standing regular bi monthly meeting with the EWG to address consecutive issues in discussing the concept of Anthropogenic Background and the suitability of the existing data for its determination.

EPA expects an agenda prior to these meetings and a notes which summarize the meetings sent to EPA following each meeting. These notes will document who attended the meeting, identify issues discussed and any agreements made. As mentioned before, the representatives from the tribes as well as the WA State Department of Ecology will be joining in for these discussions.

After reviewing our internal calendars, Wednesdays from 11-1 would work for these Bi monthly meetings. Please let me know how this works for the EWG and we look forward to getting these meetings started.

Thanks

Ravi
